Subject: Confidential [REDACTED] Update

Carolyn

Good afternoon. I wanted to let you know I was contacted by the property owner for [REDACTED] this afternoon. They have agreed to allow us to install a sub-slab depressurization system beneath the basement floor of their residence. We plan on initiating the system installation activities on Tuesday July 23, 2019 and hopefully will have it completely installed by the end of the week, but we have some scheduling constraints with the property owner (we can only access his property on Tuesday, Wednesday, and Friday) so it might spill over into the following week.

Please contact me with questions or if you need anything else regarding this update.

Sincerely,

Bradley E. Gentry, LPG
